Introduction:

KGN Rate After Discount in Credit Note Entry and Printing is a customized Tally feature designed to improve accuracy and transparency in Credit Note transactions. This functionality ensures that the **item rate displayed and printed reflects the actual rate after applying the discount**, instead of showing the original rate. It helps users avoid confusion during Credit Note entry and provides customers with a clear understanding of the final agreed price. Let's see how this Add-On will Work in Tally Prime

Features:

- Displays the **net item rate after discount** directly in the Credit Note entry screen.
- Automatically **calculates discount value** based on the entered discount percentage.
- Helps prevent **manual calculation errors** during Credit Note entry.
- Improves **price transparency** for both Owner and customers.
