Party Last Sales Price of Item

Introduction:

The **Party Last Sales Price of Item** feature in Tally helps you track the **last price at which a particular item was sold to a specific customer (party)**. It remembers the previous transaction price for that customer and shows it at the time of creating a new invoice. Let's see how this Add-On will work in Tally Prime.

Features:

- It is **party-specific** → different customers may have different last sales prices for the same item.
- Helps avoid manual checking of past invoices.
- Item Price is Auto-Suggestion in Invoice while Billing
- Supports Multiple Parties
- Flexibility Can be enabled or disabled as per the business requirement in voucher Alteration

Important Alert!

Take Back up of your company Data before activating the Add-On.
